## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4, 5, 7-12, 14 and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Immel (US Patent 3,134,137).

Immel discloses a molding and curing system. As shown in Figs. 5-6, the system comprises extruder 32 with extruder head 35 and conical tip 35a for extruding a rubber material into a mold. The mold comprises upper and lower press platens 6 and 7. The rubber material is then cured for a predetermined amount of time in the manner claimed by the applicant (see col. 4, line 66 through col. 6, line 3).

### ***Allowable Subject Matter***

3. Claims 2-3, 6, 13 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claim 17 is allowed.
